# KRAFT COLLECTION

## *Sustainable Solutions that Delivers*

The high demand for off-premises dining coupled with a strong desire to minimize environmental impact has driven the need for sustainable packaging solutions. In fact, eco-friendly packaging is one of the top priorities for foodservice operators.

Sabert's Kraft Collection of corrugated and paperboard food packaging solutions is made with a variety of materials which are recyclable and have post-consumer fiber content. Plus, its sturdy construction ensures food is properly insulated and protected during transport.

With Sabert's Kraft Collection, you'll help save energy consumption and reduce landfill-destined waste, while making a positive impression on guests with recycled-content packaging that doesn't sacrifice on strength or performance.

The collage features four distinct food packaging solutions: a coffee station with a 'Coffee' sign and stacks of cups; a catering tray filled with various food items; a sandwich box containing a large sandwich and onion rings; and a coffee carrier holding several coffee cups.
