

1 Compartment Hinged Container, 20pcs

Mozaik Plant-Based Compostable Single Compartment Containers are an ideal replacement for plastic food storage containers and their lids, which tend to go missing or break. Made from plant-based renewable resources, these hinged clamshell containers are durable, sturdy, and both microwave safe. Use them for meal prep, storing food in the refrigerator, or sending guests home with leftovers without worrying if you'll ever see your favorite plate again. Because the Mozaik Plant-Based Compostable Single Compartment Containers are crafted from renewable resources, they can be recycled or composted after use, and there's no reason to feel guilty about not re-using plastic food storage containers.
