

8" x 11" ULTRASTACK® PLATTERS

Stackability You Can Count On

PERFORMANCE THAT STACKS UP

Sabert's UltraStack® product line expands with new 8" x 11" catering platters, designed for operators who need total confidence in food transportation. Ideal for everything from sandwiches to fruit trays, these platters deliver the security and versatility operators depend on.

FEATURES & BENEFITS

- Secure stacking prevents tipping and spills during transport; stack can be tilted up to 30° without disengaging
- Extra-strength deep walls provide confidence for large, heavy menu items
- Clean, elevated design showcases food and drives impulse sales
- Audible button locks make secure locking fast and easy
- Base and lid are made with PET, the most widely recycled plastic worldwide
- Crystal clear PET lid is optimal for merchandising displays
