

GREEN COLLECTION PACKAGING

Certified Compostable Packaging

THE GREEN COLLECTION

Certified Compostable Packaging

Sabert truly is the better choice in sustainable packaging, with a full line of certified compostable products. We combine sustainable design with exceptional performance, using renewable and biobased resources.

Through an ongoing dedication to innovation, Sabert is creating more sustainable products and behaviors, such as our commitment to removing PFAS from all fiber-based products. With research, fresh thinking and cutting-edge manufacturing technology, Sabert is able to accelerate new product development and provide the highest performing products in the market. Combined with our roots as a food packaging manufacturer, our Center for Innovation is helping advance the next generation of compostable products.

It's never been easier to go green than with Sabert's 100% compostable food packaging.

IN ADDITION TO OUR GREEN COLLECTION, SABERT OFFERS A WIDE VARIETY OF OTHER PACKAGING SOLUTIONS:

CATERING COLLECTION

Designed for the Occasion®, our Catering Collection offers upscale presentations at affordable prices, featuring platters, cutlery and more.

COLD COLLECTION

Versatile packaging with fresh appeal, our Cold Collection provides great merchandising options for bowls, tubs, produce.

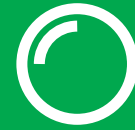

HOT COLLECTION

Quality packaging that's just right for take-out, our Hot Collection maintains stability and structure under the hottest conditions.

KRAFT COLLECTION

Sustainable packaging that delivers, our Kraft Collection has sturdy construction to ensure food is properly insulated and protected.

MADE IN THE USA: SABERT'S NEW MOLDED FIBER FACILITY

In 2020, Sabert took a significant step forward in our commitment to sustainable food packaging solutions by opening our new molded fiber packaging manufacturing facility, located in Greenville, TX.

With the growing demand for pulp packaging, Sabert is uniquely positioned as a leading North American manufacturer, offering an innovative suite of BPI-certified, PFAS-free formulations that meet the evolving needs of our customers. Together, we're paving the way for a sustainable future!

LEARN MORE ABOUT OUR PFAS-FREE MATERIAL FORMULAS

STANDARD PULP

Standard Pulp, a stock solution equipped with low-grade resistance to oil and grease, works well for immediate consumption use cases and is suitable for reheating in microwave and conventional ovens.

PULP PLUS®

Pulp Plus® is an improved stock solution designed with low-grade resistance to oil and grease and works well for immediate consumption use cases and is suitable for reheating in microwave and conventional ovens. Includes enhanced moisture resistance with mid-range shelf life in refrigerated applications.

PULP MAX®

Pulp Max® is a mid-tier solution featuring excellent resistance to hot oil and grease, in moderate duration and suitable for reheating in microwave ovens.

PULP ULTRA®

Pulp Ultra® is the premier solution engineered with superior resistance to hot oil and grease, in prolonged applications, and suitable for reheating in microwaves, conventional and rapid-cook ovens. Includes exceptional moisture resistance for use in applications where extended shelf-life in refrigerated or frozen environments is required.

CERTIFICATIONS & COMPLIANCE

No intentionally added PFAS

The Sabert PFAS-Free logo indicates the successful removal of fluorinated chemistry in Sabert product formulations. When this logo appears customers can be certain that no intentionally added PFAS are used in the making of Sabert products.

	Why We Care	List of Materials
--	-------------	-------------------

USDA BioPreferred

As a food packaging manufacturer being a part of the USDA BioPreferred program further solidifies our commitment to material transparency, food safety and sustainability. The USDA biobased logo makes it easy for Sabert customers to determine the amount of bio-based content used to produce Sabert products.

Standard Pulp, CPLA

Biodegradable Products Institute

Displaying the BPI logo assures Sabert customers that our products have undergone credible, science-based evaluation, do not include intentionally added PFAS, and are designed to fully biodegrade in industrial composting environments, where facilities exist.

Standard Pulp, Pulp Plus®, Pulp Ultra®, CPLA

OK Compost and Industrial

The OK Compost logo signals to Sabert customers that our products meet strict scientific standards, contain less than 100 ppm of fluorinated chemistry, and are designed to completely biodegrade in composting environments such as industrial compost piles.

CPLA (industrial only)

Compostable Manufacturers Alliance

For Sabert customers, the CMA certification program helps compost facilities identify products that have successfully passed field testing, in addition to lab testing, to certify products will effectively breakdown in compost piles.

CPLA (CMA-I)

Western Michigan University

For areas where composting is not accessible, the WMU SBS-E testing protocol communicates to Sabert customers that our pulp products pass standards for repulpability and recyclability. By meeting this standard, Sabert gives customers another alternative for responsible end of life disposal demonstrating our commitment to sustainability.

Standard Pulp, Pulp Plus®, Pulp Ultra®

Green Screen Certification

GreenScreen for Safer Chemicals is a transparent, science-based hazard assessment tool that supports safer chemical design through informed substitution. It applies green chemistry principles to identify and transition away from high-concern chemicals toward safer alternatives.

Pulp Plus®, Pulp Ultra®

ROUND, SQUARE & OVAL BOWLS

FOR SALADS, ENTRÉES OR BURRITO BOWLS

The versatility of Sabert's mix and match bowls and lids allow you to eliminate excess SKUs. We offer a variety of single serve packaging options for customers dining in, or with matching lids for take-out or delivery.

OUR COMMITMENT TO SUSTAINABILITY

At Sabert, we believe that our commitment to the environment is a fundamental part of our core business philosophy -- that a more sustainable future helps our customers, our industry, our communities and our planet.

Across all of our facilities, partners, plants and people, we're putting our inventive culture to work to help find new ways to protect the environment, strengthen communities and drive responsible growth - every day.

www.sabert.com/sustainability

Improved environmental outcomes through innovative business thinking.
