

Sabert's Molded Pulp Formulations

Sustainable & Compostable

Sabert's Center for Innovation developed propriety pulp formulations - **Pulp Plus™**, **Pulp Max™** and **Pulp Ultra™**, – designed to help our customers achieve their sustainability goals without compromising product quality or food safety.

No intentionally added PFAS

Standard Pulp

No added resistance

Consumption under **30 minutes**

Microwavable

Oven Safe up to 400°

Refrigerator Safe for 24 Hours

Low oil resistance for under 30 minutes

Pulp Plus™

Resistant Additive

Extended refrigeration time for cold cases

Microwavable

Oven Safe up to 400°

Refrigerator Safe for 4-7 days

Low oil resistance for under 30 minutes

Pulp Max™

Resistant Additive

Extended travel time for takeout & delivery

Microwavable

Refrigerator Safe for 4-7 days

High oil resistance for 30 minutes to 2 hours

Pulp Ultra™

Resistant Coating

Ideal for fresh prepared, RTE & protein applications

Microwavable

Oven Safe up to 400°

Refrigerator & Freezer Safe for 10-30 Days

High oil resistance for 2+ hours
