COMPLETE YOUR COMPOSTABLE OFFERING

Sabert's new compostable cutlery is made from crystallized PLA, a durable and renewable plant-based material designed to improve strength and increase heat tolerance. The natural white cutlery offers the convenience of ordinary disposable cutlery with added benefit of BPI certified industrial compostability helping divert waste from the landfill and aid in the regeneration of healthy soil. Each cutlery utensil is crystallized adding extra strength and rigidity that ensures confidence to not break or bend during use. Sabert's new compostable cutlery is the ideal pairing with takeout & delivery or dine-in orders.
